The Palmer Museum

Reflections in Carbide – We have a new exhibit up at the Palmer Museum! Local photojournalist Adam Christiansen spent part of last summer documenting drawings and notations

Photo Project – The Matanuska Valley Historical Photo Project is progressing! We are up to 482 photos online and have thousands more in the basement awaiting their turn. Each photo has curated information about its date, location, and depicted information. This tool, funded by a grant from the MTA Foundation, is an excellent resource for researching Palmer's history and enjoying the growth of our town through the years!

Walking Tours – Every summer, the Palmer Museum offers guided walking tours of the historic district! City employees and city council members may tour with us for free! Come take a walk with one of our guides.
