**Summer Sewer Rates:****Residential Rates:**

Because summer month water consumption for residential customers increases due to lawn and garden irrigation without a related increase in the use of sewer service, residential customers shall be charged for water actually used for each month of the year, but their sewer service charges for each of the billing cycles to include the months of May, June, July and August shall be set to the flat rate fee equivalent to 0 - 5000 gallons of waste water usage plus sales tax as outlined in the current fee schedule.

**Commercial Rates:**

Commercial users may install separate water meters to meter water used exclusively for irrigation purposes during the months of May, June, July and August, provided that the commercial customer pays for the purchase and installation of a separate water meter for that purpose, and such installation is approved by the utility. The customer shall pay fees for all water used, but the amount of water used for irrigation through an irrigation system water meter will be deducted from the commercial account's total metered water consumption for the purpose of calculating monthly charges for sewer service.
