CHAPTER 5: ACTION PLAN AND IMPLEMENTATION STRATEGIES

5.2 Action Plan

5.3 Potential Fundings Sources

5.1 - IMPLEMENTATION OVERVIEW

To prepare a community to proactively engage with rapidly changing trends, it must have an action plan in place to ensure that the City and its local partners take actionable steps towards its redevelopment goals. The project team created a formal Action Plan and identified some preliminary public funding sources that

respond to the individual projects that the community identified through the AWP process. This would be instrumental for the community to realize the vision and redevelopment projects outlined in this AWP document.

5.2 - ACTION PLAN

The project team created an Action Plan to support the community's vision, conceptual plan, and corresponding project list. The Action Plan is organized as a list of six overarching implementation strategies followed by corresponding actions. These are high level recommendations to ensure the AWP projects move forward; the City should develop internal work plans for each action. Table 5.2.a is the Action Plan for East Downtown Palmer. For each implementation strategy, the Action Plan lists actions, the target year, external partners, resources, and detail/components. This Action Plan can guide the City's work plan and budget allocations so that staff takes incremental steps to support redevelopment in the AWP study area.
