

FIRE & LIFE SAFETY PLAN REQUIREMENTS

(Change of use/occupancy type) (Request from DEC/AMCO/DHSS)

Submit ONE digital or TWO hard copy plan sets with the following information to be reviewed:

PLOT PLAN

- Drawn to scale and fully dimensioned showing the building location on the property.
- Show location of fire hydrant(s), building fire department connection, knox-box and any fire department access lanes (if applicable).

BUILDING PLAN DETAILS

- Description of building use or occupancy for all areas of the building.
- Dimensioned floor plan.
- Complete exit details to fully evaluate the means of egress including:
 - Occupant loads
 - Egress path(s) (give length)
 - Means of egress arrangement
 - Clear width of corridors
 - Clear width of doors
 - Width of stairs/ramps
 - Exit signage
 - Emergency lighting
 - Emergency power supply
- Details for all fire protection systems proposed including:
 - Fire sprinklers (last certification/standpipe locations) (*if applicable*)
 - Fire alarm (*if applicable*)
 - Fire extinguisher(s) (location/type)
- Hazard of content classification and any proposed special storage arrangements (*if applicable*)

Questions regarding zoning setbacks, permitted uses, and parking should be directed to the **Palmer Community Development Specialist at 907-761-1309**

Questions regarding building code requirements or plan preparation should be directed to the **Palmer Building Inspector at 907-761-1329**
