Independent Auditor's Report

Honorable Mayor and Members of the City Council City of Palmer, Alaska

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of City of Palmer, Alaska, as of and for the year ended December 31, 2013 and the related notes to the financial statements, which collectively comprise City of Palmer's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of City of Palmer, Alaska, as of December 31, 2013, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the budgetary schedule for the General Fund be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit for the year ended December 31, 2013 was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Palmer's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, the Schedule of State Financial Assistance, and the combining and individual fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards and the Schedule of State Financial Assistance are required by OMB Circular A-133 and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, respectively.

The accompanying Schedule of Expenditures of Federal Awards, the Schedule of State Financial Assistance, and the combining and individual fund financial statements and schedules listed in the table of contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended December 31, 2013 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended December 31, 2013.

City of Palmer's basic financial statements for the year ended December 31, 2012 (not presented herein), were audited by other auditors whose report thereon dated June 10, 2013, expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. The report of the other auditors dated June 10, 2013, stated that the individual fund financial statements and schedules for the year ended December 31, 2012 were subjected to the auditing procedures applied in the audit of the 2012 basic financial statements and certain additional auditing procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those basic financial statements or to those basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and, in their opinion, were fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended December 31, 2012.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2014 on our consideration of City of Palmer's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Palmer's internal control over financial reporting and compliance.

Management's Discussion and Analysis

December 31, 2013

As management of the City of Palmer, we offer readers of these financial statements this narrative overview and analysis of the financial activities of the City of Palmer for the fiscal year ended December 31, 2013. Readers are encouraged to read this narrative in conjunction with the City's financial statements, which follow this section.

Financial Highlights

- The City's assets and deferred outflows exceeded its liabilities at the close of the 2013 fiscal year by \$84,564,412. This amount represents a decrease of \$636,635 from the previous year. Of the total net position, \$6,046,563 is Unrestricted Net Position and is available to meet the City's ongoing obligations.
- As of December 31, 2013, the City's governmental funds reported combined ending fund balances of \$4,337,506, an increase of \$779,138.
- The fund balance is comprised of Nonspendable, Committed, Assigned and Unassigned classifications. Unassigned fund balance for the General Fund was \$1,270,688 or 12.2% of total General Fund expenditures. The Nonspendable fund balance was \$1,249,582 which consists of prepaid expenses and advances to other funds. The remaining balance was Assigned for vested unpaid vacation and sick leave.
- In October 2013, the City of Palmer entered into a loan agreement with Alaska Department of Environmental Conservation from the Alaska Drinking Water Fund for the Southwest Utility Expansion Phase IIb project in the amount of \$1,071,429. The City's outstanding loans and bonds payable totals \$3,570,609, a net decrease of \$408,086 from the previous year.

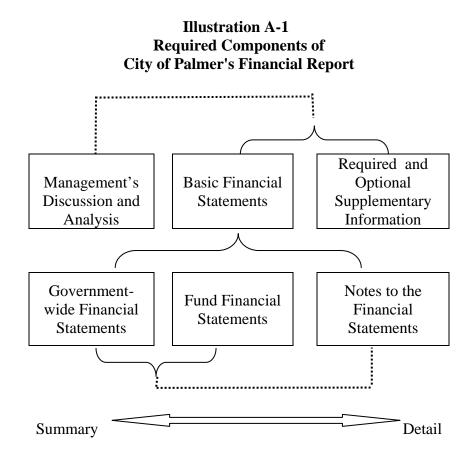

Overview of Financial Statements

This financial statement is comprised of four segments as dictated by Generally Accepted Accounting Principles (GAAP): Management's Discussion and Analysis (this section), the Basic Financial Statements, Required Supplementary Information and Other Supplementary Information. The Basic Financial Statements include two kinds of statements that present different views of the City of Palmer.

- The Government-wide Financial Statements provide both long-term and short-term information about the City's overall financial status.
- The Fund Financial Statements focus on individual parts of Palmer's government, reporting the City's operations in more detail than the Government-wide Statements.

Management's Discussion and Analysis

- The governmental funds statements explain how general government services like public safety were financed in the short-term as well as what remains for future spending.
- Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses, such as the Water/Sewer Utility, Refuse, Airport, Land Development and Golf Course.

The financial statements also include notes, which elaborate on some of the information in the financial statements, and provide more detailed data. These financial statements are followed by a section of supplementary financial information that further explains and supports the information in the financial statements. In addition to these elements, we have included other information such as the City's single audit information. Illustration A-2 summarizes the major features of the City's financial statements. The remainder of this overview section of the Management's Discussion and Analysis explains the structure and contents of each of the statements.

Management's Discussion and Analysis

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Palmer's finances in a manner similar to a private-sector business. These statements can be located on pages 20-21 of this document.

- The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may indicate the improvement or deterioration of the City's financial position.
- The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The government-wide financial statements of the City are divided into two categories:

- Governmental activities These are functions such as public safety and public works, services that are principally supported by taxes and intergovernmental revenue.
- Business-type activities These functions are intended to recover all or a significant portion of their costs through user fees and charges. The City's Water/Sewer Utility, Refuse, Airport, Land Development, and Golf Course fall within this category.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Palmer, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's short-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Management's Discussion and Analysis

Fund Financial Statements, continued

The City of Palmer maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund which is considered a major fund. Data from the other seven governmental funds are combined into a single, aggregated presentation. The seven nonmajor governmental funds include Special Revenue Funds: Narcotics Grant, Police Grants, Neighborhood Parks Development, and Asset Forfeiture; and Capital Projects Funds: Capital Projects, Equipment and Road Improvements. The combining statements for these nonmajor funds can be found on pages 57-58 of this report.

The City adopts annual appropriated budgets for the General Fund and most nonmajor governmental funds. Budgetary comparison statements have been provided for these funds to demonstrate compliance with these budgets.

Proprietary funds - The City maintains enterprise funds, a type of proprietary fund, to report the same functions presented as business-type activities in the government-wide financial statements. The City of Palmer's major enterprise funds are Water and Sewer, Airport, and Golf Course; and its nonmajor enterprise funds are Refuse and Land Development.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements can be found on pages 26-30 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data presented in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 31-51 of this report.

Government-wide Financial Analysis

At the close of the 2013 fiscal year, the City's net position (assets and deferred outflows exceeding liabilities) totaled \$84,564,412 (see Table A-1). Of this amount \$78,388,816, or 92.7%, represents the City's investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related outstanding debt used to acquire those assets. Because the City of Palmer uses these capital assets to provide services to the community, these assets are not available for future spending. The remaining amounts of net position, are labeled as restricted or unrestricted. The unrestricted amount totals \$6,046,563, and is available to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of Palmer is able to report positive balances in these two categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

Management's Discussion and Analysis

Governmental Activities

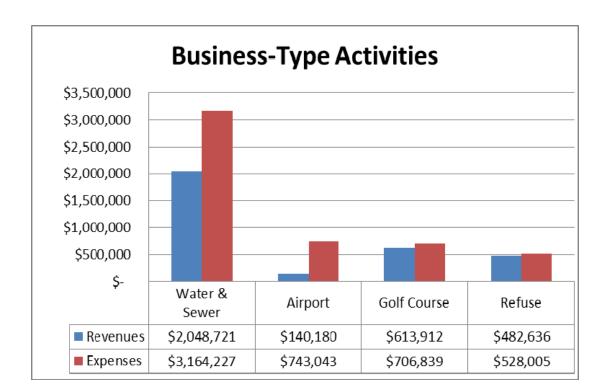

Governmental activities increased the City of Palmer's net position by \$571,499. The increase is primarily a result of revenues exceeding expenditures, depreciation expense in excess of capital outlays by \$487,312, and a net increase in total deferred inflows of deferred special assessments and deferred property taxes of \$47,341. There was an increase in charges for services by \$44,624. Property taxes decreased by \$50,475 but sales tax collections increased by \$238,982 over the amount collected in 2012. The City's expenditures decreased in the amount of \$107,143 from 2012. Net transferred in to governmental activities was \$123,926 primarily due to transfers for equipment, trucks, repairs and maintenance to governmental capital projects. The equipment and trucks were ordered at the end of the calendar year but couldn't be delivered until the first of the next year. The repairs and maintenance couldn't be completed in this fiscal year.

Business-Type Activities

The City's business-type activities had a decrease of \$1,208,134 in net position from 2013 primarily due to the Enterprise Funds experiencing a loss.

The following graph shows expenses and operating revenues for all of the business-type activities in 2013. Not included in the revenues are capital grants, contributions, and investment earnings. As reflected in the graph, all funds had expenses in excess of program revenues. In each case, except for the Airport Fund and Golf Course, if depreciation cost were removed, operating revenues would exceed operating expenses.

Management's Discussion and Analysis

Program Revenue & Expenses - Business-Type Activity

Financial Analysis of the Government's Funds

Governmental funds - The focus of the City of Palmer's governmental funds is to provide information on short-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending following the end of the fiscal year. As of December 31, 2013, the City's governmental funds reported combined ending fund balances of \$4,337,506, an increase of \$779,138 or approximately 21.9% compared to balances a year earlier. Of the ending balance, \$1,270,688, 29.3% is unassigned and available to the City for future spending. The remaining fund balance is nonspendable, restricted, committed or assigned. The increase of total fund balance during the year is attributed to an increase in sales tax revenues.

• The City maintains three capital project funds that account for the use of bond proceeds, intergovernmental grants and transfers from the General Fund to support the construction of capital improvements. Financial resources in these funds are intended to eventually be totally expended once the capital improvements have been completed. During the course of 2013, the fund balances of these capital project funds increased by \$160,025.

Management's Discussion and Analysis

Proprietary funds - The City of Palmer's proprietary funds provide the same type of information found in the government-wide financial statements.

The Water and Sewer Fund's unrestricted net position is \$1,351,729, a decrease of \$12,022 primarily due to an increase in capital assets, some of which were funded through transfers from other funds. The City share of grants will cause unrestricted net assets to decline in future years due to increased capital project activity requiring the City to expend additional matching funds.

The Refuse Fund unrestricted net position is \$1,237,033, a decrease of \$12,136. Cash and investments decreased slightly and there was an increase in property, plant, and equipment during 2013.

The Golf Course unrestricted net position shows a deficit of \$392,902 compared to a deficit of \$252,726 at the end of 2012. Operating expenses before depreciation exceeded operating revenues by \$41,396. The decreased in revenue was due to inclement weather in May preventing the golf course to be available for playing golf. The Golf Course operating revenues decreased by \$20,369 from the prior year, and operating expenses before depreciation decreased by \$22,878.

The Airport Fund unrestricted net position shows a deficit of \$482,081 compared to a deficit of \$415,773 at the end of 2012. This is the result of lower than expected revenues from land leases.

The Land Development Fund unrestricted net position did not change from 2012. There is no change from the prior year due to no activity in the fund during the year.

General Fund Budgetary Highlights

While the original adopted budget had revenues exceeding expenditures and transfers by \$202,999, the final general fund budget reflects revenues exceeding expenditures and transfers by \$36,039.

Differences between the original budget and the final amended budget are described below:

- The final budget increased total revenues and transfers by \$530,236 including an increase of \$502,132 for PERS relief funding, a decrease of \$22,500 for motor vehicle taxes, and an increase of \$19,400 for a volunteer fire department grant. PERS relief funding is funding provided by the state to political subdivisions to offset the unfunded state pension liability.
- The final budget increased expenditures by \$697,196 including an increase of \$190,322 in transfers to other funds.

Capital Asset and Debt Administration

Capital assets - As detailed in Table A-3 below, the City of Palmer's investment in capital assets for its governmental and business-type activities as of December 31, 2013, totals \$82,105,988 (net of accumulated depreciation). This amount represents a \$1,667,890 decrease over the previous year.

Management's Discussion and Analysis

Major capital events during the 2013 year included:

- Road Improvements and Residential Street Lighting
- Steel Water Main Improvements
- Lift Station Rehabilitation
- Sewer and Water Line Extensions
- Wastewater Treatment Plant Improvements
- Arena Expansion

Additional information on the City's capital assets can be found in note 5 on pages 39-40 of this report.

Long-term debt - At the end of the 2013, the City of Palmer had total debt outstanding of \$4,049,280.

Management's Discussion and Analysis

In 2005 the City accomplished a bond refunding on \$865,000 in general obligation debt for the Golf Course, with a reduction in the interest rate over 10 years from 5%-6% to 3%-5%.

In 2005 the City entered into an agreement with the Alaska Department of Environmental Conservation (ADEC) for a Clean Water Loan and Drinking Water Loan in the amounts of \$1,115,000 and \$1,150,000, respectively. In 2006, the loan amounts were amended to \$1,518,000 and \$782,000 respectively. The City has three other loan agreements with ADEC including a Clean Water Loan of \$222,857 and Drinking Water Loans of \$411,000 and \$604,000. These loans are a combination of federal and state monies and bear interest at 1.5%. Loan repayments begin one year following completion of the plans and specifications or initiation of operation of the facilities.

Capital Asset and Debt Administration, continued

In 2013, the City entered into another loan agreement with ADEC in the amount of \$1,071,429 from the Alaska Drinking Water Fund for the Southwest Utility Expansion, Phase IIb project at an interest rate of 1.5% for 20 years. Loan repayments begin one year following substantial completion and initiation of operation of the facility.

The City of Palmer issues bonded debt through the State of Alaska Municipal Bond Bank. The State of Alaska Municipal Bond Bank maintains a bond rating from Moody's Investors Service, Inc. and Fitch Ratings at Aa2 and AA+ respectively, to the most recent bond issue, the 2013 Series Two Bonds.

Additional information on the City's long-term debt can be found in note 7 on pages 43-45 of this report.

Economic Factors and Next Year's Budgets (2014) and Rates

- Sales tax remains the primary source of revenue for the General Fund accounting for 51.3% of total budgeted revenues. The City monitors the sales tax revenues closely and remains cautiously optimistic regarding future sales tax revenues due to it's plans to promote Palmer and attract businesses and events to the City. The city continues to record an increase in sales tax from the prior year.
- The City continues with expansion and construction and improvements to the water and sewer utility lines along with road improvement projects.
- Due to the increase in the rising cost of health insurance, beginning January 2014 the City employees will begin contributing 15% of the cost of providing health insurance coverage for spouses and children.

These various factors were taken into consideration in the development of the City's 2014 annual budget. The annual budget is adopted for the General, Enterprise and Capital Projects Funds. Major aspects of the adopted 2014 budget include:

- The property tax rate remained at 3.0 mills or \$.003 per \$1,000 of assessed value. This amount was levied for the operation and maintenance activities in the General Fund, and to fund capital improvements not associated with the enterprise funds.
- Sales tax rate remained the same as 2013 at 3%.

Management's Discussion and Analysis

• Budgeted expenditures in the General Fund remained the same as last year excluding transfers.

Requests for Information

This financial report is designed to provide a general overview of the City of Palmer's finances for all interested parties. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the following:

Reconciliation of the Change in Fund Balances of Governmental Funds to Statement of Activities Year Ended December 31, 2013

Net change in fund balances - total governmental funds	\$ 779,138
The change in net position reported for governmental activities in the Statement of Activities is different because:	
Governmental funds report capital outlays as expenditures. However on the Statement of Activities, depreciation expense is recognized to allocate the cost of these items over their estimated useful lives. This is the amount by which depreciation	
(\$1,267,316) and loss on disposal of capital assets (\$275,244) exceeded capital outlays (\$1,055,248).	(487,312)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. This is the net increase in deferred special assessments and property taxes.	47,341
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of the long-term debt (\$205,000) consumes current financial resources of governmental funds. Neither transaction,	
however, has any effect on net position. Also, governmental funds report the effect of bond premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized (\$4,227) in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	209,227
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These are the decreases in: Accrued interest	3,925
Vested unpaid vacation and sick leave	 19,180
Change in Net Position of Governmental Activities	\$ 571,499

Notes to Basic Financial Statements December 31, 2013

1. Summary of Significant Accounting Policies

Reporting Entity

The City of Palmer (City) was incorporated April 30, 1951 as a home rule city under the laws of the State of Alaska. The City operates under a council-manager form of government and provides the following services: public safety (police, fire, and building department), public works (roads and general), community programs, golf course, ice rink, library, water and sewer utility, airport, refuse utility, land development and general government administration.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant policies:

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the City. In general, the effect of interfund activity has been removed from these statements to minimize the double-counting of internal activities. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely primarily on fees and charges to external parties.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) fees, fines and charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to Basic Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers all revenues except reimbursement grants to be available if they are collected within 60 days after year end. Reimbursement grants are considered available if they are collected within one year of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only to the extent they have matured.

Property taxes, sales taxes, certain charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue in the current period. Most other revenue items are considered to be measurable and available only when received by the government.

The City reports the following major funds:

Major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be reported in another fund.

Major proprietary funds:

The *Water and Sewer Enterprise Fund* is used to account for the operations of the water and sewer utility.

The *Airport Enterprise Fund* is used to account for the operations of the local airport facility.

The *Golf Course Enterprise Fund* is used to account for the operations of the local city-owned golf course.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are allocated administration fees and charges between the enterprise funds and the various other funds and departments. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. In addition, general revenues include all taxes, investment income, and State of Alaska entitlement revenues.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Funds are charges to customers for sales and services. Operating expenses for the Enterprise Funds include the costs of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Investments

Investments are stated at fair value.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the proprietary funds consider all cash and investments to be cash and cash equivalents. The central treasury, which holds cash and investments, is used essentially as a cash management pool by each fund.

Inventory

Inventories of materials and supplies are recorded at cost on a first-in, first-out basis. The cost is recorded as an expenditure/expense at the time individual inventory items are consumed.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Land Held for Sale

Land held for sale is valued at cost.

Capital Assets

Capital assets, which include property, plant, and equipment, and infrastructure assets (roads, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. In the case of the initial capitalization of infrastructure assets, the City chose to include all such items, regardless of their acquisition date.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the useful life of the asset are not capitalized.

Depreciation has been provided over the estimated useful lives of the assets using the straight-line method. The estimated useful lives of the assets are as follows:

Years

Buildings	40
Improvements other than buildings	15-50
Machinery and equipment	5-25

Grants and Other Intergovernmental Revenues

In applying the measurable and available concepts to grants and intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts are considered "earned"; therefore, revenues are recognized based upon expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the measurable and available criteria are met.

Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on July 1 and are payable in two installments in August and February. The Matanuska-Susitna Borough bills and collects the taxes for the City. Collections of the City taxes and remittance of them to the City are accounted for in the Matanuska-Susitna Borough's Tax Agency Fund. City property tax revenues are recognized when levied to the extent that they result in current revenues available to finance City operations.

Long-Term Debt

In the government-wide and the proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Any bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form—prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance. This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance. These amounts can only be used for specific purposes pursuant to constraints imposed by formal ordinances of the City Council—the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the City Council removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance. This classification reflects the amounts constrained by the City's "intent" to be used for specific purposes, but are neither restricted nor committed. The City Council and City manager have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance. This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to use externally restricted resources first, then unrestricted resources—committed, assigned, and unassigned—in order as needed.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for expenditures are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund and Special Revenue Funds. Any encumbrances outstanding at year end are reported as appropriate constraints of fund balances only if they meet the definitions and criteria as outlined above.

Compensated Absences

The City allows employees to accumulate earned but unused vacation and sick leave benefits. All annual leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental fund financial statements only if it has matured (e.g. the employee has terminated employment).

Unearned Grant Revenue

Amounts received from grantor agencies, which are restricted as to use and have not been expended for the intended uses are shown as unearned revenue.

Pension Plan

Substantially all employees of the City participate in the Public Employees' Retirement System (PERS) administered by the State of Alaska.

Notes to Basic Financial Statements

Comparative Data

Comparative data for the prior year have been presented in the accompanying supplementary information in order to provide an understanding of changes in the City's financial position and operations.

Deferred Inflows/Outflows of Resources

A deferred outflow represents the consumption of the government's net position or fund balance that is applicable to a future reporting period. A deferred inflow represents the acquisition of net position or fund balance that is applicable to a future reporting period. For example, revenues that have been earned but are not yet available in the governmental funds are now reported as deferred inflows. In the government-wide financial statements, the residual net of all of the accounts is net position.

2. Stewardship, Compliance and Accountability

Budgetary Accounting

An operating budget is adopted each fiscal year for the General Fund and some Special Revenue Funds on the same modified accrual basis used to reflect actual revenues and expenditures. In addition, the City adopts budgets for its enterprise funds. Appropriations lapse at year end to the extent that they have not been expended or encumbered. The financial statements and schedules with budgets presented in this report reflect the final budget authorization, including Council amendments made during the year.

The City follows these procedures in establishing the budgetary data reflected in the basic financial statements:

- a. During or prior to the sixth week prior to January 1, the City Manager submits to the City Council a proposed operating budget for the calendar year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- b. Public hearings are conducted by the City to obtain taxpayer comments.
- c. Prior to December 31, the budget is legally enacted through passage of a resolution.
- d. The City Manager is authorized to transfer budgeted amounts within departments; however, any revisions that alter the total expenditures of any fund or department within a fund must be approved by the City Council. Expenditures may not exceed appropriations at the fund level.
- e. Formal budgetary integration is employed as a management control device during the year for all funds.
- f. All budgets are adopted on a modified accrual basis. The City does not budget for certain items such as depreciation.

3. Cash and Investments

The City of Palmer utilizes a central treasury that is available for use by all funds. Each fund's portion of the central treasury is displayed on the balance sheet as "Cash and investments", or in the case of negative cash, is included in "Due to other funds."

Reconciliation of Deposit and Investment Balances

The following is a reconciliation of the City's deposit and investment balances to the financial statements as of December 31, 2013.

Cash Investments	\$ 2,618,758 2,252,467
	\$ 4,871,225

Investment Policy

The City is authorized by ordinance to invest in the following:

- a. Government obligations;
- b. Commercial paper having original maturities of not more than 270 days;
- c. Bankers' acceptances accepted by a rated bank and eligible for rediscount with, or purchase by, Federal Reserve System banks;
- d. Certificates of deposit issued by rated banks;
- e. Interest bearing obligations of a corporation, or of any state of the United States of America or any political subdivision thereof;
- f. Shares of Securities and Exchange Commission registered money market mutual funds conforming to Rule 2a-7 of the Investment Company Act of 1940 that invest primarily in direct obligations of the United States and repurchase agreements backed by those obligations;
- g. Repurchase agreements with primary dealers or rated banks; and
- h. Alaska Municipal League Investment Pool.

Per the ordinance, all security transactions, including collateral for repurchase agreements, must be held in the City's name by a third party custodian designated by the City Manager and evidenced by safekeeping receipts and statements. Certain investments must meet specific ratings by Standard and Poor, or Moodys, and bear interest at a rate of at least 25 basis points above the rate of interest on United States Treasury obligations of the same maturity at the time of purchase. The City Manager is authorized to appoint custodian banks and external investment managers subject to approval by the City Council. The investment manager must provide a monthly report summarizing investment activity in the portfolio.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

Investment maturities at December 31, 2013 are as follows:

		Investment Maturities (in Years)				
Investment Type	Fair Value	Less Than 1	-	1-5		
Corporate obligations Certificates of deposit	\$ 1,003,599 1,248,868	\$ 1,003,599 502,620	\$	746,248		
Total Investments	\$ 2,252,467	\$ 1,506,219	\$	746,248		

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City did not have any investments subject to credit risk at year end.

4. Deferred Inflows and Unearned Revenue

At December 31, 2013, the various components of deferred inflows and unearned revenue reported in the governmental funds were as follows:

Deferred inflows: Delinquent property taxes receivable - General Fund Special assessments not yet due and delinquent - General Fund	\$ 39,433 425,509
Total Deferred Inflows	\$ 464,942
Unearned revenue:	
Arena naming rights	\$ 610,830
Grant drawdowns	67,484
Other revenues received in advance	43,467
Total Unearned Revenue	\$ 721,781

The remainder of this page left blank intentionally.

5. Capital Assets

The following summarizes the changes in capital assets for the year ended December 31, 2013:

	Balance January 1, 2013	Additions and Reclassifications	Deletions and Reclassifications	Balance December 31, 2013

Total Transfers to Other Funds	\$	682,632

7. Long-Term Debt

In October 2011, voters approved \$2 million in revenue bonds to be used to finance additional water and sewer improvement projects. In October 2010, voters approved \$3 million in general obligation bonds to acquire property known as Mat Maid block. As of December 31, 2013, none of the bonds have been issued.

In October 2013, the City signed a Clean Water Loan Agreement to fund the Southwest Utility Expansion, Phase IIb. The terms include 1.5% interest and 20 year repayment, in an amount not to exceed \$1,071,429. At December 31, 2013 no funds have been drawn on the Ioan.

The remainder of this page left blank intentionally.

A summary of long-term debt transactions of the City for the year ended December 31, 2013, follows:

	J	Balance anuary 1, 2013	Additions	Retired	Balance December 31, 2013	Due Within One Year
Governmental Activities Bonds Payable: \$1,320,000 refunding Golf Course general obligation bonds, due in annual installments of \$145,000 to \$150,000, plus interest at 3.0% to 5.0% through 2015	\$	430,000	\$ - \$	135,000 \$	295,000 \$	145,000

In 2012, the City Advance refunded \$900,000 in outstanding general obligation bonds associated with the Ice Rink. At the time of the transaction, proceeds from the new bonds were placed in an irrevocable trust with an escrow paying agent to provide future debt service on the old debt until paid in full. For financial accounting purposes, the refunded debt is considered defeased and therefore, has been removed from the City's financial statements. At December 31, 2013, defeased debt outstanding and under payment by the escrow agent is \$900,000.

Annual debt service requirements to maturity for the bonds and loans follow:

Bond Covenants

All significant bond covenants have been complied with as of December 31, 2013.

8. Capital Lease

The City has entered into a lease agreement as lessee for financing the acquisition of an irrigation computer system for the golf course. The lease agreement qualifies as a capital lease for accounting purposes (title transfers at the end of the lease term) and therefore, has been recorded at the present value of the future minimum lease payments. The following is a summary of the asset acquired with the capital lease that has an outstanding balance as of December 31, 2013:

	Golf Course Fund
Machinery and equipment Less accumulated depreciation	\$ 96,170 (22,440)
Carrying Value	\$ 73,730

The following is a schedule of future minimum lease payments under the capital lease and the present value of the net minimum lease payments at December 31, 2013:

Year Ending December 31,	0	Golf Course Fund
<u>2014</u>	\$	18,653
Total minimum lease payments Less current portion		18,653 18,683
Long-Term Portion	\$	-

9. Fund Balances

Fund balances, reported for the major fund and the nonmajor funds in the aggregate on the governmental funds balance sheet is subject to the following constraints:

	General Fund	Nonmajor Funds	Totals
Nonspendable: Prepaid insurance and prepaid rent Advances to other funds	\$ 489,654 759,928	\$ -	\$ 489,654 759,928

Total Fund Balances	\$ 2,929,452	\$ 1,408,054	\$ 4,337,506

10. Defined Benefit Pension Plan

The City participates in the Public Employees' Retirement System (PERS). PERS is a cost- sharing multiple employer plan which covers eligible State and local government employees, other than teachers. The Plan was established and is administered by the State of Alaska Department of Administration to provide pension, postemployment healthcare, death, and disability benefits. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature.

The Plan is included in a comprehensive annual financial report that includes financial statements and other required supplemental information. The report is available at the following address:

Department of Administration Division of Retirement and Benefits P.O. Box 110203 Juneau, Alaska 99811-0203

Notes to Basic Financial Statements

Conversion to Cost Sharing

In April 2008, the Alaska Legislature passed legislation which converted the existing Public Employees Retirement System (PERS) from an agent-multiple employer plan to a cost-sharing plan with an effective date of July 1, 2008. Under the cost-sharing arrangement, the State of Alaska Division of Retirement and Benefits no longer tracks individual employer assets and liabilities. Rather, all plan costs and past service liabilities are shared among all participating employers.

That same year, the State of Alaska passed additional legislation which statutorily capped the employer contribution, established a state funded "on-behalf" contribution, and required that employer contributions be calculated against all PERS eligible wages, including wages attributable to the defined contribution plan described later in these footnotes.

Employee Contribution Rates

Regular employees are required to contribute 6.75% of their annual covered salary (2.97% for pension and 3.78% for healthcare). Police and firefighters are required to contribute 7.5% of their annual covered salary (3.29% for pension and 4.21% for healthcare).

Employer and Other Contribution Rates

There are three contribution rates associated with the pension and healthcare contributions and related liabilities:

Contractual Rate: This is the required funding rate for participating employers. The contractual rate is statutorily capped at 22% of eligible wages, subject to a wage floor, and other termination events. This 22% rate includes all PERS participating wages, including those wages attributable to employees in the defined contribution plan.

ARM Board Adopted Rate: This is the rate formally adopted by the Alaska Retirement Management Board. This rate is actuarially determined to calculate annual funding requirements of the Plan, without regard to the statutory rate cap. There are no constraints or restrictions on the actuarial cost method or other assumptions used in this valuation, other than those established and agreed to by the ARM Board.

Current legislation provides that the State of Alaska will contribute the difference between the ARM Board adopted rate and the contractual (statutory) rate. These additional contributions are recognized by each employer as an on-behalf payment and are reflected as revenue and expense/expenditures within the financial statements.

GASB 43 Rate: This is the rate used to determine the long-term pension and healthcare liability for plan accounting purposes in accordance with generally accepted accounting principles as established by GASB. Certain actuarial methods and assumptions for this rate calculation are mandated by GASB. For State fiscal year FY14 (six months ended December 2013), the rate uses an 8.00% pension discount rate and a 6.88% healthcare discount rate. Additionally, the GASB 43 rate disregards all future Medicare Part D payments.

The GASB 43 rate differs significantly from the ARM Board adopted rate as a direct result of differences in the actuarial valuation methodology and assumptions.

Contribution rates for the six months ended June 30, 2013 were determined as part of the June 30, 2010 actuarial valuation. Rates for the six months ended December 31, 2013 (State FY14) were determined in the June 30, 2011 valuation.

		ARM Board					
	Contractual	Adopted	GASB 43				
January to June 2013	Rate	Rate	Rate				
Pension	9.67%	15.75%	24.95%				
Postemployment healthcare	12.33%	20.09%	39.93%				
Total Contribution Rate	22.00%	35.84%	64.88%				
July to December 2013							
Pension	10.64%	18.38%	24.95%				
Postemployment healthcare	11.36%	17.30%	39.93%				
Total Contribution Rate	22.00%	35.68%	64.88%				

* Note the State of Alaska will be implementing new GASB rules for pension accounting beginning in FY15. These new rules will change the accounting and disclosure requirements at the plan level.

Annual Pension and Postemployment Healthcare Cost

The City is required to contribute 22% of covered payroll, subject to a wage floor. In addition, the State of Alaska is required to contribute approximately 13.84% and 13.68% of covered payroll for each six month period noted above. In accordance with the provisions of GASB Statement Number 24, the City has recorded the State contribution in the amount of \$581,149 as revenue and expense/expenditures in these financial statements. However, because the City is not statutorily obligated for these payments, this amount is excluded from the annual pension and OPEB cost required by the City, as reported below:

Year Ended December 31,	Per	Annual sion Cost	Annual OPEB Cost	С	Total Benefit ost (TBC)	Con	City tributions	% of TBC Contributed
2013 2012 2011	\$	382,485 343,789 300,757	\$ 360,091 438,439 541,936	\$	742,576 782,228 842,693	\$	742,576 782,228 842,693	100% 100% 100%

11. Defined Contribution Pension Plan

Employees hired after July 1, 2006 participate in PERS Tier IV, a defined contribution plan. The Plan is administered by the State of Alaska, Department of Administration. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature. The Alaska Retirement Management Board may also amend contribution requirements. Included in the Plan are individual pension accounts, retiree medical insurance plan and a separate Health Reimbursement Arrangement account that will help retired members pay medical premiums and other eligible medical expenses not covered by the medical plan.

Employee Contribution Rates

Employees are required to contribute 8.0% of their annual covered salary. This amount goes directly to the individual's account.

Employer Contribution Rates

The City is required to contribute the following amounts based on covered salary:

		Police/Fire
January to June 2013	Other Tier IV	Tier IV
	F 00%	F 0.0%
Individual account	5.00%	5.00%
Retiree medical plan	0.48%	0.48%
Occupational death and disability benefits	0.14%	0.99%
Contribution Rate for the DC Plan	5.62%	6.47%
		Police/Fire
July to December 2013	Other Tier IV	Tier IV
Individual account	5.00%	5.00%
Retiree medical plan	0.48%	0.48%
Occupational death and disability benefits	0.20%	1.14%
Contribution Rate for the DC Plan	5.68%	6.62%

In addition, the employer must contribute to the Health Reimbursement Arrangement. AS 39.30.370 establishes this contribution amount as "three percent of the average annual employee compensation of *all employees of all employers* in the plan". As of July 1, 2013, for actual remittance, this amount is calculated as a flat rate for each full time or part-time employee per pay period and approximates \$1,897 per year for each full-time employee, and \$1.22 per hour for part-time employees.

Finally, the total employer contribution must equal 22% of covered payroll. After subtracting the defined contribution (DC) rates and the HRA contribution, any residual amount of the 22% will be deposited into the defined benefit (DB) plan. Known as the DBUL payment, this amount is intended to mitigate against the declining payroll base that resulted from the creation of the DC plan.

Employees are immediately vested in their own contributions and vest 25% per year in employer contributions. The City and employee contributions to PERS including the HRA contribution for the year ended December 31, 2013 were \$113,746 and \$137,290, respectively.

12. Conduit Debt - Revenue Bonds

On January 11, 2000, the City participated in the issuance of \$1,800,000 of revenue bonds with Southcentral Foundation, an Alaska nonprofit corporation, to finance the purchase of an office building in Anchorage. The balance of the revenue bonds outstanding at December 31, 2013 was \$780,878.

On September 10, 2002, the City participated in the issuance of \$9,050,000 of revenue bonds with Southcentral Foundation to finance the construction and acquisition of a dental, optometry, and behavioral health services building in Anchorage. The balance of the revenue bonds outstanding at December 31, 2013 was \$5,946,112.

None of the above bonds constitute a general obligation debt or pledge of the full faith and credit of the City and accordingly, the bonds are not reflected in the City's financial statements.

13. Risk Management

The City faces a considerable number of risks of loss, including (a) damage to and loss of property and contents, (b) employee torts, (c) professional liability; i.e., errors and omissions, (d) environmental damage, (e) workers' compensation; i.e., employee injuries, and (f) medical insurance costs of employees. Commercial policies, transferring the risk of loss, except for relatively small deductible amounts, are purchased for employee medical costs. The City is a member of the Alaska Public Entity Insurance Association (APEI), a governmental insurance pool. APEI provides the City coverage for automobiles, casualty, including general liability, earthquake/flood, property, public officials and employee liability, law enforcement professional liability, employee benefit liability; and workers' compensation. Another insurance company provides the City coverage for airport liability. The City has no coverage for potential losses from environmental damages. APEI is a public entity risk pool organized to share risks among its members. The APEI's bylaws provide for the assessment of supplemental contributions from members in the event that losses and expenses for any coverage vear exceed the annual contributions and income earned on such contributions for the year. Such supplemental contributions shall be based upon each member's annual deposit contribution in comparison to the aggregate annual deposit contributions of all members. Coverage limits and the deductibles on the policies are relatively consistent with prior years. APEI made no supplemental assessments during the year ended December 31, 2013.

14. Grants

The City participates in a number of federal government and State of Alaska grant programs. These programs are subject to program compliance audits by the grantors or their representatives. Any disallowed claims, including amounts already collected, would become a liability of the applicable fund. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time.

15. Contingencies

Litigation

The City is involved in various claims and litigation as part of the normal course of its activities. In the opinion of management, the disposition of these matters is not expected to have a material adverse effect on the City's financial statements, with the exception of the matter noted below.

Palmer Airport Contingency

The Federal Administration (FAA) made preliminary findings that the City violated certain grant assurances with respect to the use of property at the Palmer Municipal Airport for non-aeronautical purposes by the City itself and by certain airport tenants. The City has submitted resolutions to each point in the corrective action plan and each proposal has been favorably received by the FAA. The City is awaiting final written approval on two matters. The FAA corrective action plan does not require the City to make any payments to any third party.

Employee vs. Independent Contractor Claim

As allowed under state regulations, the State of Alaska Division of Retirement and Benefits (DRB) conducted an audit of the City's PERS participation and contributions. As part of that audit, DRB questioned the independent contractor status of two contractors and whether those individuals should be classified as employees for purposes of IRS and Social Security reporting. The audit determined that they were not employees under PERS, therefore no liability exists with respect to PERS. The City continues to maintain that these two individuals are independent contractors and intends to defend vigorously against any claim to the contrary. The City has not been contacted by the IRS or the Social Security Administration with regard to this matter and it is unclear what, if any, financial liability may exist with respect to this issue. No liability has been reflected in these financial statements on this matter.

Wastewater Treatment Plant Issue

The State of Alaska contacted the City concerning the ammonia effluent levels which periodically exceed allowable discharge limits at the Waste Water Treatment Plant. The Alaska Department of Environmental Conservation advised City officials that they are developing a draft Compliance Order By Consent (COBC) which will provide guidance for the City to consistently maintain allowable ammonia effluent levels. The COBC may involve an undetermined financial penalty. No liability has been reflected in these financial statements on this matter.

16. New Accounting Pronouncements

The Governmental Accounting Standards Board has passed several new accounting standards with upcoming implementation dates. Management has not fully evaluated the potential effects of these statements, but believes that GASB Statement 68 will result in the biggest reporting change. Actual impacts have not yet been determined:

GASB 67 - Financial Reporting for Pension Plans - Effective for year-end December 31, 2014 - This statement contains certain corrections to prior GASB statements on the topic of improving financial reporting by state and local governmental pension plans.

GASB 68 - Accounting and Financial Reporting for Pensions - Effective for year-end December 31, 2015 - This statement changes the reporting and disclosure requirements for governments that participate in pension plans. This statement modifies the participating employer side reporting in connection with the Plan reporting at GASB 67.

GASB 69 - Government Combinations and Disposals of Government Operations -Effective for yearend December 31, 2014 - This statement contains certain disclosures to be made about government combinations and disposals of government operations to enable financial statement users to evaluate the nature and effects of these transactions.

GASB 70 - Accounting and Financial Reporting for Nonexchange Financial Guarantees - Effective for year-end December 31, 2014 - This statement contains reporting requirements when a government financially guarantees the obligations of another government, non-profit, or private entity without receiving equal value in exchange.

GASB 71 - Pension Transition for Contributions Made Subsequent to the Measurement Date - Effective for year-end December 31, 2015 - This statement is a companion to GASB Statement 68 and clarifies treatment of contributions made by a contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

General Fund

The General Fund is established to account for the financial operations of the City of Palmer which are not accounted for in any other fund.

Revenues for this fund are recorded by source. Principal sources of revenues are property taxes, sales taxes, intergovernmental revenue and charges for services.

Expenditures are recorded first by function, then by activity and object of expenditure. General Fund expenditures are made primarily for the operations of basic municipal services such as police and fire protection, public works, library, legal and administrative services.

Special Revenue Funds

Special Revenue Funds are used to account for revenues from specific sources, which are restricted to finance particular functions and activities. Primary funding sources include grants and operating transfers from other funds.

Narcotics Grant

This fund accounts for grants from the federal government and State of Alaska to assist with salaries and other related costs associated with narcotics investigations.

Police Grants

This fund accounts for various federal and State grants to assist the police department.

Neighborhood Parks Development

This fund accounts for neighborhood park development fees which shall be expended for the acquisition of land and the development of neighborhood parks.

Asset Forfeiture

This fund accounts for federal, State and local asset forfeitures. Funds are restricted to support narcotics operations.

Capital Project Funds

Capital Project Funds are established to account for the resources expended to acquire assets of a relatively permanent nature. These funds evolved from the need for special accounting for bond proceeds, grants and contributions for the acquisition of capital assets.

Capital Project Funds provide a formal mechanism which enables administrators to ensure that revenues dedicated to a certain purpose are used only for that purpose, and further enables them to report to creditors and other grantors of Capital Project Fund revenue that their requirements regarding the use of the revenue were fully satisfied.

Capital Projects

This fund accounts for the City's various capital improvement projects. Funding is provided primarily through federal and state grants and is supplemented by the City.

Equipment

This fund accounts for the purchase of major equipment. Funding is provided primarily through federal and state grants and is supplemented by the City.

Road Improvements

The Road Improvements Capital Project Fund accounts for revenues and expenditures relating to road local improvement districts. Funding is primarily from the General Fund.

Enterprise Funds

Enterprise Funds are established to account for the financing of self-supporting activities of governmental units, which render services to the general public on a user-charge basis. Enterprise Funds are maintained on the accrual basis of accounting.

Water and Sewer

This fund accounts for the operations of the water and sewer system.

Airport Fund

This fund accounts for the operations of the City-owned airport.

Refuse

This fund accounts for the operations of the solid waste collection services.

Golf Course

This fund accounts for the operations of the City-owned golf course.

Land Development

This fund accounts for the sale of various parcels of land owned by the City.

Notes to Schedules of Expenditures of Federal Awards and State Financial Assistance Year Ended December 31, 2013

1. Basis of Presentation

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance include the grant activity of City of Palmer and are presented on the modified accrual basis of accounting. The information in the schedules is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits.*

2. Prior Year Disallowed Costs

In 2012, it was discovered that certain non-reimbursable costs were inadvertently charged to federal and state programs. The State of Alaska Department of Environmental Conservation (ADEC) disallowed \$599,721 of prior year costs on the federal Steel Water Main Replacement Drinking Water Fund - Recovery Act Loan number 677221, and \$77,089 of prior year costs on the state Steel Water Main Replacement Phase VII grant number 67117. These costs have been reflected in the prior year on the Schedule of Expenditures of Federal Awards and the Schedule of State Financial Assistance. In 2013, a further \$15,647 of federal disallowed costs relating to 2012 was identified. This was reduced from the federal award in 2013 and is shown as net expenditures for the current year.

The City notes that, while these costs were disallowed under the specific grant programs involved, the costs were reasonable for the overall project which included water, sewer, streets and street lighting upgrades. The disallowed portion was substantially associated with street and street lighting improvements not eligible under the water and sewer programs.

In 2002, the City was awarded the Wastewater Treatment Plant Expansion, Phase III grant number 67107. This original award contained a 30 percent required match by the City. This grant was subsequently updated in 2006, and additional funds were added to the original grant award. The additional funds required a 50 percent match from the City. During the years subsequent to 2006, the City mistakenly billed ADEC with only the 30 percent required match. This was discovered in 2013 and the City reimbursed ADEC for the excess portion of the grant. The net effect of this is shown as negative state expenditures on the Schedule of State Financial Assistance.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Honorable Mayor and City Council City of Palmer, Alaska

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Palmer, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise City of Palmer's basic financial statements, and have issued our report thereon dated June 27, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Palmer's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Palmer's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Palmer's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of City of Palmer's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Palmer's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of City of Palmer's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Palmer's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by OMB Circular A-133

Honorable Mayor and City Council City of Palmer, Alaska

Report on Compliance for Each Major Federal Program

We have audited City of Palmer's (the City's) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2013. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of City of Palmer's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, City of Palmer complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2013.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

Report on Internal Control Over Compliance

Management of City of Palmer is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City of Palmer's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiencies, in internal control over compliance with a type of compliance of deficiencies, in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major State Program and Report on Internal Control Over Compliance as Required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*

Honorable Mayor and City Council City of Palmer, Alaska

Report on Compliance for Each Major State Program

We have audited City of Palmer's (the City's) compliance with the types of compliance requirements described in the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* that could have a direct and material effect on each of the City's major state programs for the year ended December 31, 2013. The City's major state programs are identified in the accompanying schedule of state financial assistance.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of City of Palmer's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Those standards and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Those standards and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the City's compliance.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

Opinion on Each Major State Program

In our opinion, City of Palmer complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended December 31, 2013.

Report on Internal Control over Compliance

Management of City of Palmer is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency or a combination of deficience with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Accordingly, this report is not suitable for any other purpose.
