Commercial rates:

Commercial users may install separate water meters to meter water used exclusively for irrigation purposes during the months of May, June, July and August, provided that the commercial customer pays for the purchase and installation of a separate water meter for that purpose, and such installation is approved by the utility. The customer shall pay fees for all water used, but the amount of water used for irrigation through an irrigation system water meter will be deducted from the commercial account's total metered water consumption for the purpose of calculating monthly charges for sewer service.
